Brian K. Johns
Director

NOTICE

Bradford County Emergency Management will be holding a meeting to discuss the County's Local Mitigation Strategy (LMS) on **Wednesday, November 9th at 3:00 p.m.** at the County's Emergency Operations Center. This meeting will review the plan developed to reduce and or eliminate the risks associated with natural and man-made hazards. These plans must be in accordance with the Disaster Mitigation Act of 2000 (DMA 2000). Without an approved LMS a county will be unable to apply for many Federal grants, and the LMS must be updated every five years to remain compliant.

If you want to learn more about the County's LMS, we invite you to join us.
